SIX BUTCHERED WHILE THEY SLEPT

Evidences of Horrible Crime In Two Neighboring Homes at Colorado Springs

BODIES ALMOST UNRECOGNIZABLE

Heads of All Victims Had Been Cut or Smashed Open With an Axe-No Signs of Life In Either House Since Sunday-Husband and Father of One Household Arrested-Bloodstained Axe Found.

Colorado Springs, Col., Sept. 20.—
Butchered in their beds by some person as yet unknown, who used an axe, the bodies of six persons, three in each of two neighboring houses, were found here today. The heads of all the victorial ways and victorial wa tims had been smashed in and the ap-pearance of the bodies indicated that they had been dead several days and that death came while they slept.

mpartial Observers Predict Return of Government With Reduced Majority -Fight Bitter in New Brunswick.

Montreal, Sept. 20 .- This election eve when a great question mark lies across the Canadian map, finds the Domin-ion more interested in itself and the whole world more interested in it than ever before. Tomorrow will shawed questions vitally affecting the country, and of nearly deep concern to the United States—Shall the Laurier regime continue and shall Canada, by giving the government party of the last lifteen years continuance of power, put into effect the reciprocity agreement already ratified by the republic across the border.

Both Sides Confident.

On this "night pefore" the leaders of both sides are expressing extreme confidence. The government papers this evening assert that the liberals will win by fifty majority, thus increasing their strength for the Twelfth parliament's house of commons by say. parliament's house of commons by seven seats. On the other hand the opposition papers chaim an equal majority for the party of Leader Borden, and point with unequivocal certitude to the government's defeat and its realization that defeat is impending. Counting Chickens Before They Are

Hatched. The Montreal Star, which has conducted an especially aggressive antireciprocity campaign, prints in large
type tonight the statement, "Government defeated." Newspapers on both
sides support their claims by detailed
statements telegraphed by the party
organizers in the capitals of each of
the ten provinces.

Unbiased Predict Government Victory Observers who claim the opportunity or impartial survey of the situation say they expect the government to be returned with a reduced majority. This forecast ranges from ten to thirty-five, though few are willing to con-cede so high a figure as the latter. Some count upon the government being returned with an unworkable mapority, which, it is supposed, anything below ten might prove to be. In such an event, it is probable that no at-tempt would be made to secure ratification of the reciprocity agreement be-

IN NEW BRUNSWICK.

Struggie Has Been Bitterest One Since Early Nineties.

St. John, N. B., Sept. 20.—The con-luding rallies were held and the final words spoken to the electors tonight, and aside from the last political broadsides from the party newspaper organs in the morning, the campaign in Canada may be said to be over. British Protected Cruiser Rams Into Her-San Francisco Man Escapes Through Hole Into a Rowboat, Southampton, England, Sept.

The great steamship Olympic of the White Star line, which left Southampton shortly before noon today, with a great crowd of returning American tourists, lies off Calshot Castle, at the entrance to Southampton water, tonight with a gaping hole in her side as the result of a collision with the Brilish protected cruiser Hawke. Fortunately no lives were lost, and of the 2,000 or more passengers and crew of the vessels not one was injured. Miracle Olympic Was Not Sunk. The warship, moving at great speed,

followed the liner, but apparently was quite clear of her. Suddenly the cruiser swerved in and struck the liner in the starboard quarter near the stern, tearing through a section about forty feet in extent. The miraabout forty feet in extent. The mira-cle is that the Olympic was not sunk, is the Hawke is fitted with a ram specially designed to sink a vessel in spite of the watertight compartments. The liner's frame stood the shock well, and the watertight doors, which auto-matically closed, held the compart-ments hermetically scaled.

The engines of both ships were stopped immediately and as soon as the water-tight doors were secured the engines were set astern and the vessels drew Wireless Messages for Tugs. The Hawke sent wireless messages for tugs and remained alongside the liner until hey arrived to convoy to Southampton water, where she dropped anchor to await the turn of the tide to
